# 2010 STATISTICAL REPORT

## INTRODUCTION

Since the 2000 edition of the MDOC Statistical Report, bound paper copies have no longer been produced and distributed. Instead, these annual statistical reports are published only on the official MDOC web site on the Internet. The MDOC home page web address is <http://www.michigan.gov/corrections>, and the Statistical Reports are located under the *Publications & Information* link.

The crime breakdowns in the core tables of the first three sections of the report, regarding felony court dispositions, prison intake and prison population, are all based on the longer 10-character offense codes, as was first shown in the 1999 report. They are also sorted by offense code rather than by crime frequency or maximum term. Since the new sort order keeps sequential offense codes together, similar crimes that have identical maximum penalties are no longer consolidated. This new level of detail provides much richer information than in the past.

However, the additional detail also makes the crime tables much longer; the reader must be careful to watch for related offense codes when attempting to examine the data for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B-- ) in each crime table, because each code represents a specific characteristic of the offense.

Summary narrative reflecting on the Department's observations

about what the data show has again been kept to a minimum, as the Department now produces a separate Annual Report for that purpose.

### **Section Overview**

This report is divided into ten major sections (A-J).

- Section *A, Court Dispositions*, contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction, and type of disposition.
- Section *B, Prison Commitments*, provides prison intake data by the number and characteristics of new prisoners received by the Department.
- Section *C, Prisoner Population*, presents descriptions of Michigan's correctional facilities and statistics regarding the characteristics of the prisoner population.
- Section *D, Parole Board*, summarizes data on offender movement to parole and Parole Board activity and decisions, and examines the parole outcomes.
- Section *E, Probation and Parole Supervision* contains data and information regarding the community supervision programs and functions of the Department's Field Operations Administration (FOA).
- Section *F, Department Operations*, contains data and information about a variety of Department programs and administrative functions/operations. Section F contains the following subsections:

- *Prisoner Program, Misconduct and Litigation Statistics*
- *Michigan State Industries*
- *Bureau of Health Care Services*
- *Department Expenditures and Personnel Summaries*
- Section *G, Michigan Prisoner ReEntry Initiative (MPRI)*, was a new section in 2005 and reflects the development of the statewide initiative by several stakeholders, one of whom is MDOC. The first year that prisoners were paroled to the community under this initiative was in 2005.
- Section *H, Community ReEntry Programs*, brings the remainder of the Community Residential Program under the umbrella of the Michigan Prisoner ReEntry Initiative, along with the Residential ReEntry Program, and the Intensive Detention ReEntry Program.
- Section *I, Special Alternative Incarceration Program (SAI)* is administered by the Correctional Facilities Administration with Cooper Street Correctional Facility serving administratively as the parent institution. SAI has been redesigned to operate under MPRI principles.
- Section *J, Office of Community Alternatives* provides data regarding the utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison.

# Court Dispositions

# A

This section contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction and type of disposition. Offenders may have committed multiple offenses that the felony courts handle as a single court disposition or sentencing event. Both offender-based data and offense-based data have distinct uses that are not interchangeable; Therefore, offender-based data is presented in **Tables A** and **A1** through **A1c**, and offense-based data is presented in **Tables A2** through **A2c**.

**Tables A** and **A1** though **A1c** aggregate multiple offenses and/or disposition (sentencing) dates into offenders. In other words, offenders with multiple offenses and/or multiple dispositions, from the same sentencing county, were reported as follows:

- Offenses/Dispositions for the same offender that occurred three or more months apart were reported as separate disposition events. (It is possible that these separate events were combination events, as discussed in the next bullet.)
- Offenses/Dispositions for the same offender that occurred less than three months apart were aggregated together into one disposition event using the following sequence in order to report the most severe details for the disposition event:
  - The most severe disposition was reported (e.g., a disposition

to prison was reported over a disposition to jail).

- If the dispositions were of equal severity, then the disposition with the longest minimum term was reported.
- If the dispositions and minimum terms were of equal severity, then the disposition with the longest maximum term was reported. (Minimum term is used as the first severity tiebreaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender's current criminal activity, whereas the maximum term represents the Legislature's statutory limitations on judicial discretion for the current criminal activity.)

**Table A** shows the statewide prison commitment rates of offenders for the current year and the previous fourteen years.

**Table A1** shows the court dispositions of offenders broken down by disposition type and by sentencing county circuit within each of the two Field Operations Administration (FOA) regions. **Tables A1a** through **A1c** show the information in **Table A1** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses). The A1 series of tables are based on offenders, so multiple offenses/dispositions for the same offender are aggregated and reported per the above sequence.

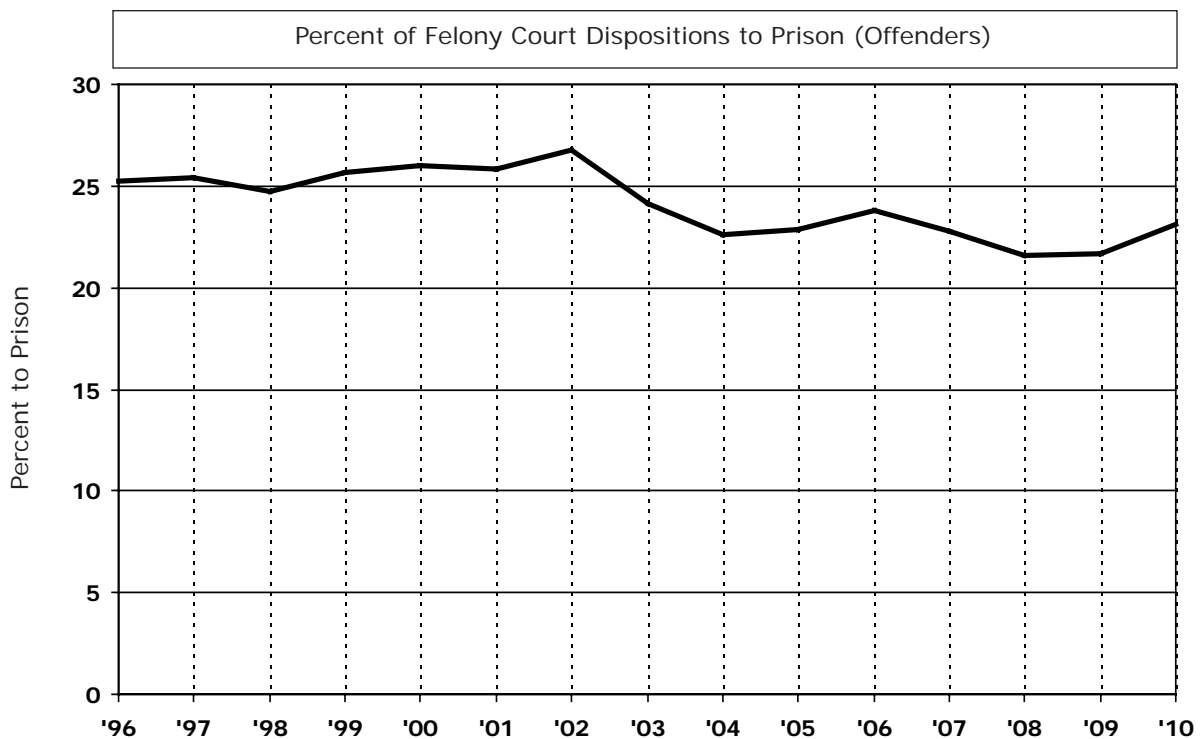

**Table A2** shows the court dispositions of offenses broken down by disposition type and offense. **Tables A2a** through **A2c** show the information in **Table A2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses). This series of tables is based on all offenses, so multiple offenses/dispositions for the same offender are reported individually by offense.

The crimes in the A2 series of tables are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps related codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the frequency and disposition pattern for a particular type of crime. For example, several separate offense codes appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.
